KNIGHT INLET LODGE

FEMALES

Physical Stats

- Weight: 91–318 kg (200–700 lbs); average
  136 kg (300 lbs) inland
  227 kg (500 lbs) coastal
- Height: Stands roughly 2 meters (6.5 feet) tall on its hind legs
- Claws: 2 to 4 inch front claws built for digging.

Lifespan & Reproduction

- Lifespan: Averages around 26 years in the wild
- Age of First Reproduction: Between 3 and 8 years old (commonly 5 to 7 years).
- Litter Size: Averages 2 cubs (range of 1 to 4)
- Reproductive Interval: Produces a new litter every 3 to 5 years

KNIGHT INLET LODGE

Lillian - F015

♀ Born 2012

Relations: Daughter to Lenore (F002), sister to Flora (F016)

Unique characteristics:

- Middle left claw sits higher than others
- Eyes thin and angled upward

Seasons they are observed:

- All seasons

Lenore - F002

♀ Born ~2003

Relations: Sister to Bella (F001), mother of Lillian (F015) and SAM (M039)

Unique characteristics:

- Very blonde face with dark circles under eyes

Seasons they are observed:

- All seasons

Thimble - F050

♀ Born ~2016

Relations: Daughter to Bella (F001)

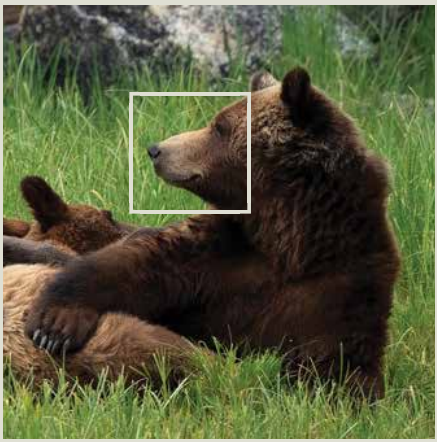

Unique characteristics:

- Darker with a very rounded muzzle from a side profile

Seasons they are observed:

- All seasons (often spends time in Siwash Bay)

Cleo - F041

♀ Born ~2009

Relations: Unknown

Unique characteristics:

- Colour varies a lot (sometimes white natal collar in the fall)
- Right ear hangs back

Seasons they are observed:

- All seasons

GC - F011

♀ Born ~2005

Relations: Unknown

Unique characteristics:

- Scar on right muzzle that doesn't touch lip (unlike Hoeya)
- Lighter fur above eyeline

Seasons they are observed:

- Late summer through fall

Hoeya - Foo8

♀ Born ~2004

Relations: Unknown

Unique characteristics:

- Scar on right muzzle connects to lip (unlike GC)
- Long white claws; very straight facial profile; tail bends to right

Seasons they are observed:

- Late summer through fall

Beatrice - Foo6

♀ Born ~2005

Relations: Unknown

Unique characteristics:

- Wide variety of coat patterns (very scraggly in summer)
- Dark panda eyes; large rounded ears; short muzzle

Seasons they are observed:

- Late summer through fall

Oso - F018

♀ Born 2012

Relations: Possibly daughter of Ursa (F005)

Unique characteristics:

- Limps on a rear left leg
- Very dark with white colouration on lips

Seasons they are observed:

- Late summer through fall

Ursa - F005

♀ Born ~2002

Relations: Possibly mother of Oso (F018)

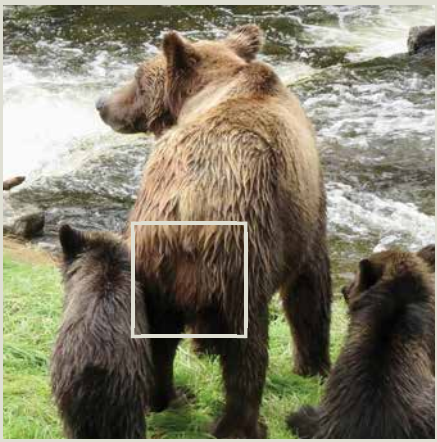

Unique characteristics:

- Reddish with very long white claws
- Hair grows in an upside down U-shape on her rear

Seasons they are observed:

- Late summer through fall

Blonde Eyebrows - F046

♀ Born ~2010

Relations: Unknown

Unique characteristics:

- Very blonde eyebrows

Seasons they are observed:

- Late summer through fall

Nose - F053

♀ Born ~2012

Relations: Unknown

Unique characteristics:

- Large chunk out of left nostril
- Large ears; short face; small and stocky

Seasons they are observed:

- Late summer through fall

Matsui - F033

♀ Born ~2010

Relations: Unknown

Unique characteristics:

- Very dark (sometimes reddish), smaller bear
- Very straight face profile

Seasons they are observed:

- Late summer through fall

KNIGHT INLET LODGE

Big Ears - F055

♀ Born ~2005

Relations: Unknown

Unique characteristics:

- Very large ears that stick out to the sides

Seasons they are observed:

- Sporadic across seasons

Fauna - F056

♀ Born 2021

Relations: Daughter of Flora (F016), grand-daughter of Lenore (F002)

Unique characteristics:

- Very blonde with a limp (as of 2025)

Seasons they are observed:

- Sporadic across seasons in Knight Inlet

MALES

Physical Stats

- Weight: 180–270kg (400–600 lbs); average 139 to 270 kg (300 to 1600 lbs) inland, 270 to 680+ kg (600 to 100+ lbs) coastal.
- Length: 6.5 to 8 feet (2 to 2.5 meters) from nose to tail
- Shoulder Height: About 3.3 feet (1 meter) tall on all fours (standing up to 8 feet tall)
- Shoulder Hump: A massive bundle of muscle attached to the backbone for digging and maximum physical strength
- Claws: 2 to 4 inch front claws built for digging.

Lifespan & Capabilities

- Lifespan: Averages around 22 years in the wild
- Top Speed: Can sprint up to 55–56 km/h (35 mph)

Toffee - M013

♂ Born ~2010

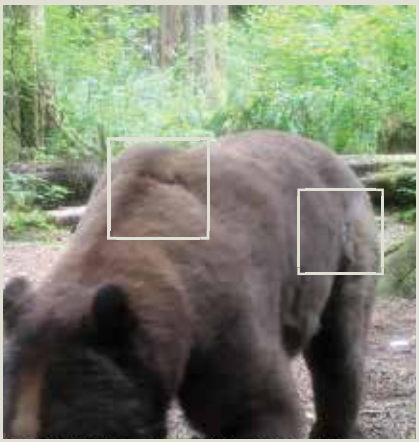

Relations: Unknown

Unique characteristics:

- Scar on the front of his left thigh crease and hump (Siwash 2023)
- Rubbed out triangle on forehead (in spring), darker in the fall

Seasons they are observed:

- All seasons

Right Angle - M040

♂ Born ~2012

Relations: Unknown

Unique characteristics:

- "Right angle" from colouration markings on face in fall
- Droopy, hooded eyes; short muzzle

Seasons they are observed:

- All seasons

Caramel - M024

♂ Born ~2011

Relations: Unknown

Unique characteristics:

- Much lighter male with large stature but lean
- Scar on right rump; long muzzle

Seasons they are observed:

- All seasons

Pretty Boy - M013

♂ Born ~2001

Relations: Unknown

Unique characteristics:

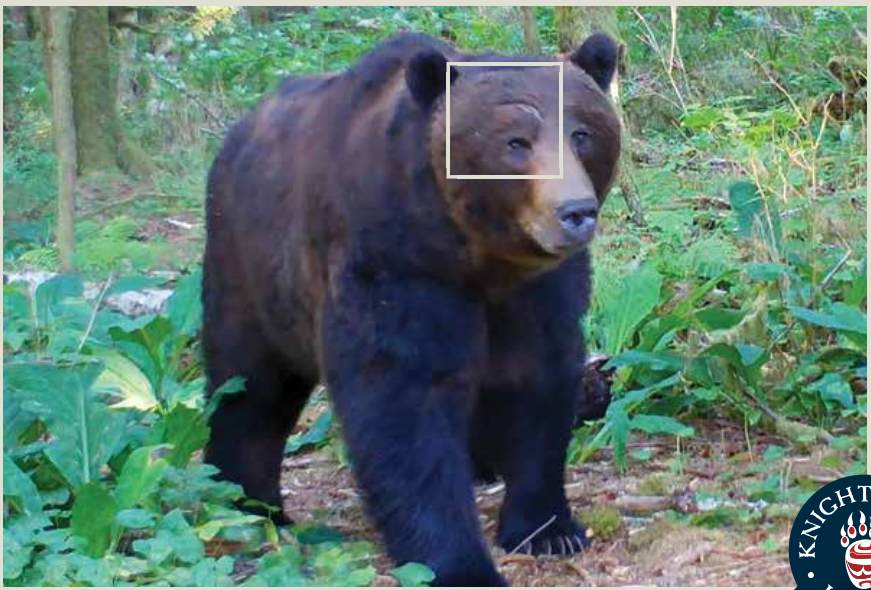

- Very dark brown (often with beard)
- Long thin crescent scar above his right eye

Seasons they are observed:

- All seasons

Chestnut - M027

♂ Born ~2004

Relations: Unknown

Unique characteristics:

- Small diagonal scar on left side of his muzzle
- Reddish chocolate brown

Seasons they are observed:

- All seasons

SAM (Sub-Adult Male) - M039

♂ Born 2018

Relations: Son of Lenore (F002)

Unique characteristics:

- Small scar on muzzle above the right side of his nose
- Very light face like his mom, with a 'side-eye' stare

Seasons they are observed:

- Sporadic across seasons

Das Auto - M018

♂ Born ~1999

Relations: Unknown

Unique characteristics:

- Large, mature bear; heavily scarred (including torn lip)
- Left ear bends over

Seasons they are observed:

- Sporadic across seasons

Simoom - M010

♂ Born ~2009

Relations: Unknown

Unique characteristics:

- Blonde body with deep rubbed out forehead; straight face profile
- Scar on his left rump

Seasons they are observed:

- Sporadic across seasons

Acknowledgements

Thank you to all who contributed photos to this book including Knight Inlet Lodge and the BearID Project for the trail camera footage.

Thank you photographers Franco Elgueta Rivera, Richard Jones, and Emma La Fontaine.

Thank you to the Da'naxda'wx Awaetlala nation for allowing us to work on their land.
